St. Alphonsus Maternity Benefit Program

In an effort to help lower III-A's overall healthcare costs, effective January 1, 2021, III-A will offer members an additional benefit if the member participates in the **III-A St Alphonsus Maternity Benefit Program**.

Through research, III-A staff found that St. Luke's Medical Centers charge significantly more for obstetrics claims than St. Alphonsus Medical Centers. Both facilities have the same services available and provide the same quality of care per Blue Cross of Idaho.

Regardless of which hospital the baby is delivered at, the member is responsible for paying their individual out-of-pocket maximum. It does not cost the member more money to choose St. Luke's over St. Alphonsus.

If a member chooses to deliver their baby at a St. Alphonsus hospital, the member will receive an incentive reimbursement for their deductible and coinsurance in the amount of \$1,500.

For a member to receive the \$1,500 reimbursement, please scan and submit the following:

- An Explanation of Benefits (EOB) from Blue Cross of Idaho that includes all of the newborn delivery services. Please submit this to the III-A Claims Inbox (Claims@iii-a.org)
- Also include a III-A Internal Claims Form (located out on the iii-a.org website, in the "Forms" section)

*If III-A is the secondary medical insurance plan, the member may still participate and receive the reimbursement.

**Please contact the III-A Benefits Line with any questions:
(208) 938-8199**
